What Are These Symbols?

UL (Underwriters Laboratories) is a safety consulting and certification company. UL provides safety-related certification, validation, testing, inspection, auditing, advising and training services to a wide range of clients, including manufacturers, retailers, policymakers, regulators, service companies, and consumers.

Canadian Standards Association (CSA) is a safety consulting and certification company for the USA and Canada. CSA provides safety-related certification, validation, testing, inspection, auditing, advising and training services to a wide range of clients, including manufacturers, retailers, policymakers, regulators, service companies, and consumers.

NSF International is a global independent public health organization that provides standards development, product certification, testing, auditing, education and risk management services for public health and the environment.

ETL is a multinational inspection, product testing and certification company specializing in product safety testing.

The CE mark is a mandatory conformity marking for certain products sold within the European Economic Area (EEA). The CE marking is the manufacturer's declaration that the product ensures that the marked goods conform to standards.

DUALHEAT[®]

FIRE PIT + PATIO HEATER

Our patented DualHeat technology marries a traditional fire pit with an infrared patio heater to provide total body warmth. The table is designed to be used four ways; fire pit, patio heater, fire pit plus patio heater or add the insert to use as a table. The versatility, functionality and beauty of DualHeat makes it a smart solution for any outdoor living space.

Extend your outdoor restaurant, vineyard or bar space longer into the night and season.
