C. Nelson Manufacturing Company Profile

Founded in 1898, Nelson was the first company to manufacture a mechanically refrigerated ice cream cabinet. Still a family owned business, Nelson has been operating in Oak Harbor for 60 years and by the Smith family for more than half of those years.

Nelson has distinguished itself as a go-to company for unique solutions to solve customer problems for design and extreme environmental conditions, even in outdoor venues. As the most serious ice cream cabinet manufacture in the US., Nelson proudly produces the largest selection of ice cream equipment in the industry.

If you don't see what you're looking for, just ask. We can probably make it. We love to produce custom equipment.
