GLASSWASHERS • FOODSERVICE FABRICATION AND REFRIGERATION • BEER SYSTEMS

Prices:
All prices are LIST. Applicable taxes will be added.

Quotations:
Unless otherwise stated, quotations are effective for 30 days only.

Acceptance:
All orders are subject to acceptance by Glastender, Inc.'s headquarters in Saginaw, Michigan. Possession of the Product Directory and Price List is not an offer to sell.

Shipments:
F.O.B. factory in Saginaw, Michigan. Freight terms are Third Party or Collect if shipped directly to you. Prepay and Add to Invoice freight terms are available upon request. The approximate shipping weights of all products are listed with the prices. Partial shipments will be made unless otherwise specified by the customer. Surface freight classifications are:

- GT-24/GT-30/GW24 Glasswashers - Class 175
- GT-18 Glasswashers - Class 250
- All Underbar Equipment - Class 175
- Bar Die Orders – Class 250
- Portable Bars - Class 175
- Remote refrigerators (i.e., no compressor) or dry storage back bar equipment - Class 175
- Self-contained refrigeration equipment - Class 150
- Ice Display Units (IDU and GDU) - Class 85
- Lighted Liquor Displays - Class 85
- Beer line chillers and beer towers (beverage dispensing equipment) - Class 92.5
- Bottle Disintegration System - Class 150
- Ice Cream Freezers - Class 77.5

All small items are evaluated to see the most cost effective means for shipment. Many small items ship via UPS or FedEx; however, when dimensional weight is excessive, LTL carriers are the most cost effective choice. Spare parts orders received before 1:00 PM EST can usually be shipped the same day.

The order department is happy to assist with routing or shipping questions.

Payment Terms:
Cash should be included with all orders unless credit terms have been arranged. To establish credit, banking and trade references are required. A convenient credit application is available upon request. Payment via credit card is not our normal means of receiving payment. Visa and MasterCard will be accepted, but must be charged at the time of shipment. In addition, a payment via credit card for orders totaling more than $500 will incur a 3% convenience fee on the total transaction amount.

Delivery:
The majority of equipment is manufactured to order and typically ships within three to six weeks after complete order information is received by the factory. In-stock equipment typically ships within two to three days of the factory receiving complete order information.

Returns:
Items specified as "Manufactured to Order" are NOT returnable.
A Return Authorization number must be issued by the factory in advance for any items that are returnable. The number MUST be noted on the outside of the returned package. Returns must be received within 90 days of the issue date. Shipping charges must be prepaid. A minimum 20% restocking charge will be applied to all authorized returns if received in new, unused condition in the original packaging.
The above conditions apply to spare part returns, except spare part returns must be received within 30 days of original shipment for electronic or electrical parts or within 90 days for all other parts.

Loss or Damage:
For customer routed shipments, Glastender, Inc. is not responsible for any loss, damage, or delay of merchandise during shipment. Such transit claims must be filed with the carrier. Merchandise must be examined on arrival. If shortages occur, Glastender, Inc. must be notified in writing within five (5) days of delivery to honor any shortage claim. Glastender will assume responsibility for freight claims on Prepay and Add shipments but the customer must inspect freight and note any damage upon receipt. Failure to do so may result in losses at the customer's expense.

Custom Orders:
Custom orders must be paid in advance and are not subject to cancellation.

Laminates:
Some products include common, readily available plastic laminates of the customer's selection. There may be an additional charge if uncommon varieties are ordered.

Glastender Freight Program

Program Conditions
Glastender, Inc. equipment pricing includes standard freight costs under the following conditions:

- Equipment order is for a minimum of $2,500, shipped to a single destination at the same time.
- Freight carrier is selected by Glastender, Inc. and may vary based on destination, transit times, performance history, customer service, or other factors.
- Shipping destination is within the continental United States and Canada. Non-continental or other international destinations are shipped to port of export.
- Combining equipment orders is allowed to reach the minimum order level if combined orders are shipped to the same destination at the same time.
- Equipment order terms of sale are FOB Saginaw MI / Freight Prepaid.
- Equipment returns are not covered.
- Parts orders do not qualify and will be charged shipping accordingly.

Customer Responsibilities
In addition to the program conditions listed above, the receiving customer must:

- Note all damage on the delivery receipt at the time of delivery.
- Open and inspect any items that look suspicious or raise concern, even if the carrier tells you it is not allowed.
- Refuse only the damaged items and keep the other items on the order.
- When in doubt, sign the delivery receipt as damaged.

The only way to hold the carrier liable is to sign the delivery as damaged.

Additional Fees
Additional carrier-related services and fees over and above standard freight costs are not covered. Such services and fees will be invoiced at the time of order or after the order has shipped. Examples of additional fees include the following:

Split shipment	Cost difference between single shipment and split shipment
Lift gate	$55 (Only available for items under 96″ in total packaged length)
Inside delivery	$100 per pallet/piece
Residential delivery	$100
Limited access site	$100
Expedited delivery	Difference from standard rate
Special delivery time	Carrier rate
Storage	Carrier rate
Re-delivery	Carrier rate
Re-consignment	Carrier rate
Other additional services not listed	Carrier rate

i

Increase your cash flow by decreasing your trash flow

Bottle Disintegration

Glastender's Bottle Disintegration System reduces the volume of glass bottle waste by as much as 85%, lowering your disposal fees and paying for itself over time. The BDS unit is easy to use and crushes a bottle in mere seconds, while being no louder than a standard blender.

Multi-level baffle system on feed chute for safe operation and glass containment
Bucket stop bar ensures bucket is fully seated when door is closed

Includes safety interlock switches
Closed door safety sensor prevents operation when front door is open
Bucket seating safety sensor prevents operation when the bucket is not in place

UP TO

85%

VOLUME REDUCTION

From this to this

The 4-gallon bucket weighs approximately 43 pounds and holds approximately 4 cases of disintegrated long neck beer bottles when full

BDS

PRODUCT INFORMATION
(see BDS Spec Sheet for complete details)

STANDARD FEATURES:

- Reduces volume of glass bottle waste by as much as 85%
- Disintegrates beer, wine, and liquor bottles up to 4″ in diameter and 14″ in height
- The 4-gallon bucket holds approximately 43 lbs. when full and is accessible for emptying by opening the front door (two buckets included)
- Compact design fits easily under the bar or in a service station
- It takes mere seconds to crush a bottle and is no louder than a standard blender
- Stainless steel interior and exterior resists corrosion and is easy to keep clean
- Includes safety interlock switches to ensure safe operation. The unit shuts down and a red indicator light is illuminated if the front access door is open or the bucket is not in place.
- Multi-level baffle system on feed chute and gasket seal to maximize glass containment
- Green indicator light identifies when unit is running
- Easy operation - simply turn it on and push a bottle down the feed chute
- Includes locking casters so unit can be easily moved for cleaning

Glasswashers

There are ten different GT-18 models to choose from.

The top of every GT-18 glasswasher is removable. The same base, which houses all the electrical and mechanical components, is used with all of the different top styles. The various tops are used in different situations to increase glasswasher throughput. A suffix is added to the GT-18 model number to specify a top different than the standard door type. The different models are pictured below:

GT-18

PRODUCT INFORMATION
(see GT-18, GT-18+1, GT-18+1L or R, GT-18+2, GT-18+2 Ext, GT-18+2-IC, and GT-18 Access Spec Sheets for complete details)

STANDARD FEATURES:
- Drive wheel and glass rack lift out for cleaning
- Two 16″ diameter polypropylene racks included
- Spray box unlatches for easy cleaning and visual inspection - 15 spray nozzles have been engineered for maximum soil removal
- Digital temperature gauge built into switch panel
- Intelligent microprocessor control delays cycle start, up to two minutes, when incoming water is below 120ºF (49ºC)
- Automatic peristaltic metering pumps accurately dispense detergent, sanitizer and rinse aid
- Prime Switch for quick chemical priming
- 1/6 HP pump recirculates wash water and rinse water
- Fractional HP drive motor powers the belt driven rotary rack and includes built-in slip clutch

ELECTRICAL:
- 120V, single phase, 60Hz, 6-foot grounded cord and plug included

CAPACITY:
- 2 minute cycle, 70 second wash and 22 second rinse exposure
- 720 - 2-1/2″ diameter or 600 - 2-3/4″ diameter glasses per hour (maximum glass height 10″ - including pitchers and wine carafes)

EXTENDED GT-18+2 MODELS

Extended GT-18+2 models have the drain table extended on one side of the glasswasher to hold more than one rack. This increases overall glasswasher throughput by allowing multiple racks of glassware to be pre-loaded for washing. The model number specifies the overall glasswasher length and the location of the extended drain table. For example, the GT-18+2-78L (pictured) is 78″ long overall and has the left side drain table extended. Extended +2's are available in 78″ and 90″ overall lengths. The 78″ models come with three racks and the 90″ models come with four racks. A leg set is included under the extended drain table.

Glasswashers

GT-24-CW

GT-30-CCW

DISCONTINUED

Standard Features

- Removable top and front shield for easy cleaning access
- Available with clockwise or counterclockwise rotation
- Conveyor lifts out for easy cleaning
- Set of three separate curtains is included
- Switch panel may be relocated in the field
- Removable side panels for easy service access
- Spray boxes unlatch for easy cleaning - engineered for maximum soil removal
- 4000 watt heater encased in an incoloy sheath to resist caustic detergents
- Digital temperature gauges built into switch panel
- Thermostat controls wash tank temperature
- Automatic electronic peristaltic metering pumps
- 1/6 HP pumps recirculate wash water and rinse water
- Fractional HP drive motor powers the belt driven conveyor and includes built-in slip clutch
- Sensor activated low water cut off in wash tank protects heater
- Automatic chemical sensor alerts operator when detergent and sanitizer is low
- Prime switches provided for high speed chemical priming
- Integrated stemware rack prevents stemware from tipping and breaking while getting washed

Product Information

(see GT-24 and GT-30 Spec Sheets for complete details)

Electrical

- 120/208V or 120/240V, single phase, 60Hz, 3-wire (two hot and one neutral), ground connected per local code (green wire), 20 amp (4 wire total), unit operates within 10% of rated voltage
- Separate 20 amp circuit required [30 amp for 208V]
- A power relay in the unit separates the high and low voltages and directs the respective power to the electrical components. The heater and power light operate on 208 or 240 volts - all other components operate on 120 volts.

Detergent

- Extra heavy duty, non-foaming, commercial liquid dishwashing detergent is required - .30% concentration

Sanitizer

- Liquid chlorine bleach (sodium hypochlorite - 5.25% solution) adjusted to 50 ppm or iodophor adjusted to 12.5 ppm

Capacity

- 3 minute cycle, 60 second wash and 60 second rinse exposure
- GT-24: 1000 - 2-1/2″ diameter or 800 - 2-3/4″ diameter glasses per hour
- GT-30: 1440 - 2-1/2″ diameter or 1260 - 2-3/4″ diameter glasses per hour
- Maximum glass height - 10″

What operational features must be specified?

1. **Switch Panel Location:** The standard switch panel location is on the front unloading side of the glasswasher, because most glasswashers are in an underbar environment (see underbar plan view). In a pass-thru style cocktail station, the switch panel is located on the bartender side of the glasswasher (see pass-thru station plan view). If a side mounted switch panel is required, it must be specified when ordering.

2. **Rotation:** Conveyor rotation can be clockwise or counterclockwise. The rotation selection is based on work flow. In an underbar environment, the wet waste sink should be on the load side of the glasswasher to prevent crossover (see underbar plan view). In a pass-thru style cocktail station, the load side should be toward the servers (see pass-thru station plan view).

3. **Voltage:** Within the United States, electrical power is available as either 208V or 240V. To ensure that the 4000 watt heater operates at maximum efficiency, Glastender offers either 208V or 240V heaters. The selection of voltage depends on what is supplied to the job site. You may need to consult your electrician.

Rotary Conveyor Glasswashers

Model	List	Weight	Length	Depth	Rotation	Voltage
GT-24-CW-208	$19,513	180#	24″	24″	Clockwise	208V

Accessories

Model	Description	List	Weight
01000557	Export transformer†	$1,589	20#
01000828	Mixing valve♦	$390	1#
CWET-24	Clip-on wet waste for GT-24 **DISCONTINUED**	$516	10#
CWET-30	Clip-on wet waste for GT-30 **DISCONTINUED**	$568	15#

See underbar section for wet waste sinks and drainboards.

†**Export Transformer-** The export transformer converts the electrical requirement to 220V, 1 phase, 50Hz.

♦**Mixing Valve-** A cold supply line is used to provide water to the rinse tank. If the cold water supply is less than 75ºF (24ºC), then a mixing valve should be installed. A mixing valve allows hot and cold water supply lines to be mixed to achieve the desired temperature.

Glasswashers

Cocktail Stations

TEAMWORK IS THE KEY.

Imagine owning a piece of equipment that turns your conventional station into a profit-maker. Glastender Cocktail Stations let bartenders and cocktail servers share the work. Teamwork is the key to increasing bartender output and your bottom line.

AN OPERATIONAL APPROACH TO EQUIPMENT DESIGN

Glastender products are designed to eliminate wasted steps and save time at every stage of the Cocktail Life Cycle. Saving time allows you to prepare and serve more drinks per hour - and more drinks served means more drinks sold.

The three styles of pass-thru cocktail stations offered are based on the Cocktail Life Cycle: assembly, disassembly, and complete.

1. Assembly: A pass-thru ice bin for making drinks.

2. Disassembly: An automatic glasswasher for handling soiled glassware.

3. Complete: A pass-thru ice bin and automatic glasswasher for making drinks and handling soiled glassware.

ASSEMBLY PROCESS

1. Select Glass
2. Add Ice
3. Add Liquor Ingredients
4. Add Mix Ingredients
5. Blend, Shake, Stir, Pour
6. Garnish the Cocktail
7. Record the Sale

DISASSEMBLY PROCESS

8. Dispose Dry Waste
9. Dispose Wet Waste
10. Wash

PROMOTE TEAM WORK, INCREASE EFFICIENCY.

Glastender manufactures a large variety of pass-thru cocktail stations which are listed in the following pages. Many of the typical features are detailed below in this one example.

Cocktail Stations

Bartender Side

Overshelf accessory for glass storage available
- Single (shown) and double available
- Perforated surfaces speed drying and draining

Tray Shelf work surface
- Positioned at comfortable working height
- Perforated surfaces speed drying and draining

Tubing Chase for soda line access
- Soda gun holder option available

Clear Acrylic Sneeze Guard accessory available to satisfy health code requirements

Double Speed Rail for liquor storage
- Open channel and rail design is easy to clean
- Stainless construction with PVC plastic sound-deadening covers

Blender Shelf

Automatic Glasswasher
- Accessible to both bartender and server
- GT-30 (shown) and GT-24 models available

Condiment Dispenser accessory available

Pass-Thru Ice Bin
- Bartender and cocktail server access
- Foamed-in-place insulation
- PVC breaker strip prevents heat transfer and reduces ice meltage
- Built-in cold plate for soda system available

Wet Waste Sinks with Faucet and Strainers

Clip-on Dry Waste accessory available

Clip-on Speed Rail accessory available

Laminated (shown) or Stainless Front and End Panels available

Server Side

CS-72-CCW with optional SOS/SS-72 single overshelf and SG-30 sneeze guard

What is an orientation or rotation specification?

All Cocktail Stations have an orientation or rotation that determines the work flow. The orientation is dictated by the position of the glasswasher within the station. Even though assembly style Cocktail Stations do not have a glasswasher, their orientation is based on the complete Cocktail Stations from which they are derived.

The orientation and work flow are determined as follows:

Counterclockwise: The glasswasher is positioned to the bartender's left. The work flow is right to left.

Clockwise: The glasswasher is positioned to the bartender's right. The work flow is left to right.

PRODUCT INFORMATION

(see PBC, PBCR, PBG, and PBGR Spec Sheets

for complete details)

STANDARD FEATURES:

• Weather resistant stainless steel construction

• Stainless steel bottle rail with PVC plastic sound deadening cover. Rail includes clear snap-on liquor identification label cover.

• PBC and PBCR - Cup storage well for three rows up to 4-1/4″ in diameter

• PBG and PBGR - Glass storage pan with perforated insert and storage for three glass racks below

• Cocktail ice bin with sliding cover and condiment cup area. Rear condiment area has hinged stainless steel sanitary cover with three (12″) or four (18″) cups.

• Iced beverage storage bin with separate drain to prevent contamination of ice used to make cocktails. Drain includes flexible hose and on/off valve for draining when convenient.

• Foamed-in-place insulation and an PVC plastic breaker strip around ice bin liners to prevent thermal transfer from outside the ice bin so ice lasts longer

• 6-gallon plastic drain tank with on-off valve to collect melting ice water from cocktail bin

• 4″ heavy-duty rubberized casters. The two bartender side corner casters are locking.

• Stainless steel front and side panels are welded to the 16-gauge stainless steel base for incredible durability

• Stainless steel bar top and front and side panels have a plastic honeycomb core for durability and sound deadening

• Stylish feathered jewel finish on bar top hides scratches

Bar Fabrication - Main Line

IBA-24-CP10

PRODUCT INFORMATION
(see IB and IB-ED Spec Sheets for complete details)

STANDARD FEATURES

- One-piece, seamless top and backsplash
- PVC plastic breaker strip around ice bin liner: creates 5/16″ raised edge around liner (NSF® requirement is 3/16″), acts as a thermal barrier to prevent heat transfer, and makes the covers slide easier
- Tubing chase available centered in backsplash of 12″ and larger models. Specify accessory model #TC-BS.
- 24″ deep version provides a larger ice bin, not just a deck extension on the back of 19″ deep model
- Sliding stainless steel cover
- Foamed-in-place insulation
- Models without cold plates have a 1-1/2″ welded tailpiece - no drain fitting to break or come loose
- 10-1/2″ deep liner (Extra deep models have a 14-1/2″ deep liner)
- Adjustable stainless steel bullet feet

What is a cold plate?
A cold plate is an aluminum block with stainless steel lines or circuits molded within. Glastender ice bins can be manufactured with a ten-circuit cold plate built into the bottom liner. Soda lines are attached by the soda vendor to the input and output lines of the cold plate and the soda water and syrup is chilled as it passes through these lines. Please consult your soda vendor to determine if cold plates are required in your ice bins.

*NOTE: These ice bin models are manufactured to order and are not returnable

PASS-THRU ICE BINS

MODEL	LIST	COLD PLATE	WEIGHT	ICE CAPACITY
IB-38X24*	$4,193	N/A	100#	175#
IB-38X24-CP10	$6,031	10 circuit	190#	175#

A 24″ wide by 38″ deep pass-thru ice bin is used to provide the cocktail servers with access to the ice. Pass-thru ice bins have the same features as standard ice bins, except there is no backsplash and the sliding cover is double sided. The bartender side of the ice bin lines up with the underbar equipment the same as a standard ice bin. The 38″ deep dimension also allows a pass-thru ice bin to line up with back-to-back mounted under-bar equipment (see sample drawings).

 *NOTE: This model is manufactured to order and is not returnable

STANDARD FEATURES
• All stainless steel construction

• Designed to house the manifold of Wunder-Bar® or Schroeder America™ 8 to 14 button soda guns

• Includes integral drip pan with radius corners for easy cleaning

• Built-in holder for soda gun

• Top cover is removable for access to the soda manifold

• Allows you to dictate the soda gun location

• Eliminates the need for tubing bundles above the work surface

• Designed to mount to at least one other piece of underbar equipment (there is no provision for leg mounting)

• Includes camlock in backsplash for mounting to adjacent underbar

• Extra deep "-ED" models available to align with extra-deep style ice bins

*NOTE: These items are manufactured to order and are not returnable

14 gauge stainless steel with rubber grommet and plastic drip pan. Grommet is specially sized to properly hold both Wunder-Bar® and Schroeder America™ style soda guns. Includes 10′ of drain line tube.

UNDERCOUNTER MOUNT GUN HOLDER
MODEL	LIST	WEIGHT
UMGH	$157	3#

PRODUCT INFORMATION
(see BW Spec Sheet for complete details)

Bottle Wells are PVC plastic-molded bottle holders that are placed in an ice bin to hold ice-chilled mix-ingredient pour and store bottles. There are two sizes of wells: 3 bottle for 19″ deep ice bins and four bottle for 24″ deep ice bins. The 3 bottle notched model is used with the IB-38x24 pass-thru ice bin.

A bottle well may be placed on one or both sides of an ice bin and is designed with a special ledge on one side to hold a sliding ice bin cover. When bottle wells are ordered with an original ice bin, the correct, smaller-sliding ice bin cover is automatically provided.

For three bottles stored on one side of a 19″ deep ice bin, order one model number BW3. For three bottles stored on both sides of a 19″ deep ice bin, order a quantity of two BW3.

For four bottles stored on one side of a 24″ deep ice bin, order one model number BW4. For four bottles stored on both sides of a 24″ deep ice bin, order a quantity of two BW4.

BW3

Bottle Racks

Pricing effective June 1, 2022

BR3 AND BR4 PRODUCT INFORMATION
(see BR Spec Sheet for complete details)

BR3 and BR4 bottle racks are vinyl-coated wire racks that are placed in an ice bin to hold ice-chilled mix-ingredient pour and store bottles. There are two sizes of wire racks: 3 bottle for 19″ deep ice bins and four bottle for 24″ deep ice bins.

The BR3 and BR4 are intended for use with smaller ice bins, where the sole purpose of the ice bin is to provide insulated storage for pour and store bottles. Bottle racks are most often used with 6″ or 12″ wide ice bins, which hold one or two racks, respectively. For example, an IBA-6 ice bin holds one BR3, while an IBA-12 ice bin holds two BR3.
BR4
(Bottles not included)

BR3

MODEL	DESCRIPTION	LIST	WEIGHT
BR3	3 bottle rack for 19″ deep ice bin	$70	3#
BR4	4 bottle rack for 24″ deep ice bin	$86	4#
BRM15
(Bottles not included)

BRM15 PRODUCT INFORMATION
(see BRM Spec Sheet for complete details)

The BRM15 stainless steel mixology bottle rack fits into an IBA-12 model ice bin or the bottle well of a CBA model combo ice bin to provide ice-chilled storage for 15 elixir bottles. NOTE: Recommend Tablecraft 916 (16 oz.) or 9085 (8.5 oz.) olive oil bottles.

Product Information
(see SSR, CSR, and DSR Spec Sheets for complete details)

Standard Features
- All stainless steel construction
- Open channel-and-rail design for easy cleaning and better view of bottles
- PVC sound deadening covers
- Locking covers for Single Speed Rails include built-in storage hangers when ordered with original equipment
- Each rail includes a clear lift-off liquor-identification cover
- Radius corners for easy cleaning

Bar Fabrication - Main Line

Blender Stations come standard with a sink, faucet, and wet waste strainer. Drainboard Blender Stations come standard with a drainboard work surface consisting of a drain pan with separate removable perforated insert.

The integral blender shelf is 9″ deep on the 24″ deep models and 10″ deep on 29″ models. The shelf stores the blender at the 19″ high level. A grommeted cord access hole is provided in the front skirt.

*NOTE: These items are manufactured to order and are not returnable

Rinser faucet installation notes:
- Important: Unit must be installed in conformance with applicable federal, state, and local plumbing codes, including adequate backflow when required.
- Must install backflow prevention device conforming to ANSI/ASSE 1022 or ANSI/ASSE 1024 to meet plumbing code (not included).
- Install in-line water regulator (included).
- A separate shut-off valve is recommended (not included).

Blender stations cannot have a speed rail mounted to them. Since speed rails are so common on underbar, blender stations come in 24″ and 29″ depths and are designed to align with underbar that has a speed rail.

⚠ **WARNING:** The plastic wet waste strainer included with this product can expose you to chemicals including Bisphenol A (BPA), which is known to the State of California to cause birth defects or other reproductive harm. 28

DBA-18 with optional SSR-18

The work surface of a Glastender drainboard consists of a 1″ deep sloped stainless steel drain pan with a separate removable perforated insert. The 1″ high perforated insert allows air circulation beneath the glassware, and since the pan is sloped and not the insert, all glassware is stored on a level plane.

NOTE: Drainboards are also available with a flat stainless steel filler board top in lieu of the drainboard top. Substitute an 'F' for the 'D' in the model number when ordering and use the same price. Filler boards are manufactured to order and are not returnable.

PRODUCT INFORMATION
(see DB Spec Sheet for complete details)

STANDARD FEATURES
- All stainless steel construction
- Adjustable stainless steel bullet feet
- 24″ deep models provide a larger drainboard storage area, not just a deck extension on the back of the 19″ deep model
- One-piece seamless top, front rail and backsplash
- Work surface consists of a drain pan and separate perforated insert for better air circulation
- All storage is on level plane

SSR-24

† NOTE: Drainboard units with a TC accessory added are manufactured to order and are not returnable

Recessed drainboards have the same drain pan with separate perforated insert design as normal drainboards, except the work surface has been lowered to allow stacking of glassware. A perforated shelf is placed on top of the first level of glassware and a second layer of glassware is stacked on top of it. Recessed drainboards work best when only one style of glassware is being stored.

Recessed drainboards cannot have a speed rail mounted to them. Since speed rails are so common on underbar, recessed drainboards have been designed to align with underbar that has a speed rail. The four different recessed drainboard styles are based on the four different equipment-mounting situations.

PRODUCT INFORMATION
(see RDB Spec Sheet for complete details)

STANDARD FEATURES
- All stainless steel construction
- Adjustable stainless steel bullet feet
- One-piece seamless top, front rail and backsplash
- Work surface consists of a drain pan and separate perforated insert for better air circulation
- Lift-out stainless steel perforated shelf for stacking glassware
- Specially designed side profiles to align with four different equipment-mounting situations

30

PRODUCT INFORMATION
(see IFC and OFC Spec Sheets for complete details)

Corner drainboards are used when an underbar line-up turns, either 90° or less. The direction of the turn may be toward or away from the bartender. A turn that is toward the bartender requires an inside corner. A turn that is away from the bartender requires an outside corner. Corner drainboards are constructed using the same drain pan with separate removable perforated-insert design as all Glastender drainboards.

90° FULL CORNER DRAINBOARDS

MODEL	LIST	DEPTH	TURN	WEIGHT
IFCA-90*	$1,328	19″	Inside	50#

FULL SIDE AND LEG SET ACCESSORIES

MODEL	LIST	DEPTH	WEIGHT
CA-LEG	$288	19″	6#
CB-LEG	$321	24″	7#

Does your Corner Drainboard need a full side and leg set?

Corner drainboards are designed to mount between two pieces of underbar. However, corner drainboards can be used to mount between any two stable vertical surfaces. Corners should not be mounted to objects that are mobile or on casters. Because they are intended to mount between two vertical surfaces, corner drainboards do not come free standing with finished sides and leg sets. If one side of the corner does not have a vertical surface on which to mount, then a side and leg set must be ordered as an accessory.

PRODUCT INFORMATION
(see ICC and OCC Spec Sheets for complete details)

STANDARD FEATURES
• All stainless steel construction
• 36 different standard models to choose from
• Work surface consists of a drain pan and separate perforated insert for better air circulation
• All storage is on level plane

Drainboard Glassracks

Pricing effective June 1, 2022

Drainboard Glassracks have a stationary or roll-out bottom shelf, adjustable or roll-out intermediate shelf, and drainboard work surface. All models are 24″ deep. The 24″ wide models hold 20″ by 20″ racks and the 18″ wide model holds the 16″ round racks used with the Glastender GT-18 glasswashers. Since drainboard glassrack shelves are solid, they can be used for non-glassrack storage also. (If a 19″ deep drainboard glassrack is required, please see 19″ deep drainboard cabinets less doors on page 34.)

PRODUCT INFORMATION
(see DBGR Spec Sheet for complete details)

STANDARD FEATURES
• All stainless steel construction
• Adjustable stainless steel bullet feet
• One-piece seamless top, front rail and backsplash
• DBGR-18 and DBGR-24 have bottom shelf and one adjustable intermediate shelf
• DBGR-24-RS has roll-out bottom shelf and one roll-out intermediate shelf (intermediate shelf is not adjustable)
• Solid shelves are also usable for non-glassrack storage
• Work surface consists of a drainboard top with drain pan and separate perforated insert for better air circulation
• Intermediate shelf is still removable after unit is plumbed
• Smooth interior walls for easy cleaning and a finished appearance

Product Information
(see DBH Spec Sheet for complete details)

Standard Features: All stainless steel construction • Adjustable stainless steel bullet feet • One-piece seamless top, front rail and backsplash • Available with or without a door • Door features integral handle • Lock standard on models with a door • Work surface consists of a drainboard top with drain pan and separate perforated insert for better air circulation • Floor is still removable after unit is plumbed and includes radius corners for easy cleaning • Smooth interior walls for easy cleaning and a finished appearance

Drainboard Half Cabinets increase the available storage area yet are still on 16″ legs allowing room for cleaning underneath. Drainboard Half Cabinets have a bottom shelf and drainboard work surface. They are available with or without a door (use suffix '-LD' for models without a door). The models with a door include a lock standard.

NOTE: Drainboard Half Cabinets are also available with a flat stainless steel filler board top in lieu of the drainboard top. Substitute an 'F' for the 'D' in the model number when ordering and use the same price.

PRODUCT INFORMATION
(see ACB Spec Sheet for complete details)

The Add-On Cabinet Base is designed to be installed beneath standard underbar equipment to provide additional storage • It can also enhance the look of your bar by eliminating the need to store loose items on the floor and making plumbing less visible • The Add-On Cabinet Base features a stainless steel floor that does not go all the way to the back of the cabinet, which provides an access opening for plumbing • The removable stainless steel floor has radius corners for easy cleaning • The interior walls are dual panel constructed for an easy to clean, smooth interior

ACB-18 (Shown without attached equipment)

*NOTE: Add-On Cabinet Bases are manufactured to order and are not returnable

All faucets are certified low lead compliant

PRODUCT INFORMATION (see HS, DHS, SW, SW Cabinets, and FS12 Spec Sheets for complete details)

STANDARD FEATURES: Manufactured with total welded construction to meet NSF® standards • All stainless steel construction • One-piece seamless top and backsplash featuring 1/4″ radius corners for easy cleaning • Adjustable stainless steel bullet feet • 9-1/4″ by 11-1/2″ by 6″ deep sink bowl with hot and cold water gooseneck faucet with 2.0 GPM aerator • Faucets are standard and ship mounted • Models HSA-12-D, HSB-12-D, and HSB-12-AD feature a soap dispenser and front-skirt-mounted C-fold paper towel dispenser • Models DHSA-18, DHSB-12, and DHSB-18 feature a soap dispenser and hinged front-access door to conceal C-fold paper towel dispenser • All wet waste sink models include a lift-out perforated-plastic wet waste strainer • Soap dispenser is easily refilled from above, no need to crawl under equipment

Single bowl sinks are available as hand sinks and wet waste sink models. Hand sink models HSA-12, HSA-18, HSB-12, and HSB-18 feature a standard stainless steel bowl and mounted faucet.

Hand sink models HSA-12-D, HSB-12-D, and HSB-12-AD include a soap dispenser and front-skirt-mounted C-fold paper towel dispenser.

Hand sink models DHSA-18, DHSB-12, and DHSB-18 feature a soap dispenser and hinged front-access door to conceal C-fold paper towel dispenser. Paper towels are easily accessed below the door. The access door is only opened for re-loading paper towels into the dispenser.

Wet waste sink models SWA-12, SWA-18, and SWB-18 include a lift-out perforated plastic wet waste strainer.

https://www.glastender.com/patents**

SWB-18-DW - Includes a sink with faucet and lift-out perforated plastic wet waste strainer, dry waste chute and cabinet base with hinged access door for storing a trash receptacle. A stainless (DWC) or plastic (03005391) trash receptacle is offered as a separate accessory.

SWB-18-DB - Tiered unit includes an upper drainboard deck for storing glassware and a lower sink with a faucet and lift-out perforated plastic wet waste strainer.

♦NOTE: TD-C Paper towel dispenser cannot be mounted to models:
• SWB-12-C
• SWB-18-DW
• SWB-18-DB
• SWB-24L-C
• SWB-24R-C

SWB-24L-C - Dual purpose work surface is half drainboard and half sink. Includes a faucet and lift-out perforated plastic wet waste strainer. The open-front cabinet base includes a center divider wall for storing up to three one-gallon chemical containers on one side and dry storage on the other.

†NOTE: Speed rails and dry waste rails cannot be mounted to models:
• HSA-12-D   • SWB-12-C
• DHSA-18   • SWB-18-DW

FS12 - The Fusion Sink is a combination hand sink and wet waste sink. The tiered unit includes an upper hand sink with faucet and soap dispenser, a lower sink with lift-out perforated plastic wet waste strainer, and side splashes. The upper sink drains into the lower sink to help melt ice. A front-flush C-fold paper towel dispenser is included in the front skirt.

SWB-12-C - Includes a sink with faucet and lift-out perforated plastic wet waste strainer and cabinet base with hinged access door for storing up to three one-gallon chemical containers.

Bar Fabrication - Main Line

> ### All faucets are certified low lead compliant

PRODUCT INFORMATION
(see DS, TS, and FS Spec Sheets for complete details)

- Compartment Sinks come in three different varieties: two, three, and four compartment
- They feature an exclusive one-piece 18 gauge stainless steel top that is seamless from the front rail all the way through the backsplash
- Each variety is offered with or without built-in drainboards on one or both sides of the sink compartment
- Drainboards, where included, are a seamless and integral part of the work surface
- The seamless welded bowls are 16 gauge fabricated stainless steel
- An 'L' or 'R' suffix in the model number designates the location of the sink compartment as left or right when there is only one drainboard

STANDARD FEATURES
- All stainless steel construction and stainless steel bullet feet
- One-piece seamless top, front rail and backsplash
- 16 gauge stainless steel fabricated sink bowls
- 19″ deep models have a backsplash mounted faucet
- Integral drainboards have lift-out stainless steel perforated insert
- Perforated stainless steel inserts are available to cover sinks when not in use
- Includes one overflow tube per bowl

Ice Scoop Well
(ice scoop not included)

MFT-20

• Cutting Board

PRODUCT INFORMATION
(see MXS Spec Sheet for complete details)

STANDARD FEATURES
- All stainless steel construction
- Complete line up is flush at 24″ deep to match adjacent underbar
- The SMHA-4 soda manifold housing is designed to house the manifold of Wunder-Bar® or Schroeder America™ 8 to 14 button soda guns
- The condiment well and ice bin are foamed-in-place insulated and include a PVC plastic breaker strip around the liner to prevent thermal transfer so ice lasts longer
- The ice bin includes a built-in ten circuit cold plate, sliding stainless steel cover, and stainless steel ice bin divider
- The condiment well provides ice-chilled storage for six pint-size (16 oz.) condiment cups and includes two lift-off stainless steel covers
- A single speed rail is included
- The MFT-20 model mixology unit includes a push-down rinser faucet to rinse shaker cans, a lift-out perforated plastic sink strainer, a 6″ diameter seamless welded draining dipper well and faucet for mixology tools, an 8″ x 11″ cutting board that is securely mounted but easily removable for cleaning, and an ice scoop well
- The MXS72-CP10 model also includes an elixir bottle well with BRM15 stainless steel rack to hold 15 elixir bottles (NOTE: Recommend Tablecraft 916 (16 oz.) or 9085 (8.5 oz.) olive oil bottles)
MIXOLOGY STATION

MODEL	LIST	LENGTH	WEIGHT

MXS72-CP10	$12,961	72″	322#

Rinser faucet installation notes:
- Important: Unit must be installed in conformance with applicable federal, state, and local plumbing codes, including adequate backflow when required.
- Must install backflow prevention device conforming to ANSI/ASSE 1022 or ANSI/ASSE 1024 to meet plumbing code (not included).
- Install in-line water regulator (included).
- A separate shut-off valve is recommended (not included).

⚠**WARNING:** The plastic wet waste strainer included with this product can expose you to chemicals including Bisphenol A (BPA), which is known to the State of California to cause birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov. Part #03000483
Warning applies to State of California only.
DI-MW30
1/9th pans and bottles not included

PRODUCT INFORMATION
(see DI-MW Spec Sheet for complete details)

STANDARD FEATURES:
- Stainless steel top and interior liner
- PVC plastic breaker strip around well liner: creates 5/16″ raised edge around liner and acts as thermal barrier to prevent heat transfer
- Stainless steel exterior wrap
- 4″ deep well liner is 3-5/8″ front-to-back
- Designed to hold up to 3-1/2″ wide bottles or 1/9th pans
- Installation kit includes: 10′ of clear vinyl drain tube, five - 4″ Ty-wraps, one - 1/2″ PVC elbow, one - 1/2″ nylon elbow, and one drainline splicer

Glastender®

44

Liquor Steps provide tiered liquor bottle storage at a height convenient for bartender use. They maintain the same easy-to-clean, open step and rail design as a speed rail. Each step and rail has PVC sound deadening covers and each rail includes a clear lift-off liquor-identification cover. The 24″ deep models provide four levels of storage front to back and the 29″ deep models provide five levels.

Liquor steps cannot have a speed rail mounted to them. Since speed rails are so common on underbar, liquor steps have been designed to align with underbar that has a speed rail. The four different liquor steps styles are based on the four different equipment-mounting situations.

PRODUCT INFORMATION
(see LD Spec Sheet for complete details)

STANDARD FEATURES
- Easily-usable height for storage
- All stainless steel construction and stainless steel bullet feet
- Includes radius interior corners for easy cleaning
- Four (4) levels of liquor bottle storage for 24″ deep models and five (5) levels for 29″ deep models
- Bottle retaining rails with clear lift-off liquor-identification cover
- Open step-and-rail design for easy cleaning and better view of bottles
- Locking covers are available for each individual row - see Locking Speed Rail Covers on page 26
- Matches speed rail design for continuity
- Specially designed side profiles to align with four different equipment-mounting situations
- Rear step on each model is extra wide for specialty liquor bottles

Island Oasis® Stand

IOS-18

## PRODUCT INFORMATION
(see IOS Spec Sheet for complete details)

STANDARD FEATURES

• All stainless steel construction
• Adjustable stainless steel bullet feet
• Radius work surface corners for easy cleaning
• One-piece seamless top and backsplash
• 1″ deep drain pan work surface to capture excess moisture
• Chamfered front to eliminate "knee knockers"

ISLAND OASIS® STAND

MODEL	LIST	LENGTH	WEIGHT
IOS-18	$1,597	18″	50#

The Glastender Island Oasis® Stand is designed for use with the model number SB-3X Island Oasis® machine. The 18″ wide by 29″ deep stand has a lowered draining work surface and extended front to allow the machine to be stored at a convenient and usable height. In most bar applications, the clear plastic ice container will be visible above the bar top.

*NOTE: Tubing Chases are manufactured to order and are not returnable

Beer Drainers*

Pricing effective June 1, 2022

Beer Drainers have a 26″ high lowered work surface and are designed specifically for use with undercounter-mounting beverage dispensers. The work surface includes a drain pan with perforated insert to serve as the drip pan for the dispenser and a special notched rear deck for beverage line access. Since the rear work surface is notched, the beverage lines can be installed prior to the beer drainer.

BDB-18 shown in an installation setting with undercounter-mounting beer tower above

PRODUCT INFORMATION
(see BD Spec Sheet for complete details)

STANDARD FEATURES
- All stainless steel construction
- Designed with lowered work surface to work in conjunction with undercounter-mounting beverage dispensers
- Adjustable stainless steel bullet feet
- Rear deck with tubing chase notch allows beer lines to be installed prior to beer drainer
- Front drain pan with lift-out stainless steel perforated insert

Bar Fabrication - Main Line

With the Glastender Modular Bar Die, underbar equipment is mounted to and supported on the bar die. All the underbar equipment is pre-assembled and mounted to the bar die at the factory, then broken down into shippable sections. Installation of the bar die is very simple - easier than a conventional style underbar with a millwork bar die. The result is a beautiful, innovative underbar line up that is sealed to the floor, stainless from floor to bar top, eliminates all underbar leg sets, and hides the soda, beer, electrical, and plumbing lines.

Modular Bar Die shown with underbar line-up. Millwork bar top and front panels are not included.
Typical Side Elevation View

PRODUCT INFORMATION
(see MD Spec Sheet for complete details)

FEATURES:
- 16 gauge galvanized steel structure with stainless steel bartender side finishing
- 20A GFI outlets built in to bar die wall based on customer preference (wiring not provided)
- LED lights built in to bar die wall above underbar equipment (wiring not provided)
- Built in chaseways for beer, soda, plumbing, and electrical lines.

BENEFITS:
- Stainless steel from floor to bar top on bartender side
- Floor can be sealed to the bar die to prevent moisture from seeping from the bartender side to the customer side of the bar
- Galvanized steel structure will not rot
- Built in chaseways hide beer, soda, plumbing, and electrical lines for a cleaner, more attractive bar
- Arrives pre-assembled from factory in sections up to 6 feet long for easy installation - lowers installation costs. Just bolt the sections together, level, and attach the floor.
- Pre-engineered to exact dimensions to ensure a precise fit
- Can be used in conjunction with removable front millwork finishing panels to provide easy access to soda, beer, plumbing, and electrical lines for future modification, maintenance, or repair
- Millwork bar top and front panels can be pre-fabricated and easily attached
- Eliminates all underbar legs for easy cleaning.

The total Number of feet required is calculated by determining the overall outside dimension of the bar die wall. Please round up to the nearest whole foot.

What is a cold plate?

Choice ice bins 24″ wide and larger are available with a 10-circuit cold plate built into the bottom liner. A cold plate is an aluminum block with ten stainless steel lines or circuits molded within. Soda lines are attached by the soda vendor to the input and output lines of the cold plate and the soda water and syrup are chilled as they pass through the lines. A cold plate is recommended for ice bins used to make cocktails.

CHOICE
BY GLASTENDER

C-IB-38X24

A 24″ wide by 38″ deep pass-thru ice bin is used to provide the cocktail servers with access to the ice. Pass-thru ice bins have the same features as standard ice bins, except there is no backsplash and the optional sliding cover is double sided. The bartender side of the ice bin lines up with the underbar equipment the same as a standard ice bin. The 38″ deep dimension also allows a pass-thru ice bin to line up with back-to-back mounted underbar equipment (see sample drawings).

4"

30"

34"

16"

SIDE ELEVATION

Recessed drainboards have the same corrugated work surface as normal drainboards except the work surface has been lowered to allow stacking of glassware. A perforated shelf is placed on top of the first level of glassware and a second layer of glassware is stacked on top of it. Recessed drainboards work best when only one style of glassware is being stored.

Dimensional Full Corner Drainboards are for 90° inside turns only. The dimensions of the corner are specified in the model number. If the dimensions of each side are not the same, the longest dimension is specified second along with its location.

Corner drainboards are designed to mount between two pieces of Choice underbar. However, corner drainboards can be used to mount between any two stable vertical surfaces. Corners should not be mounted to objects that are mobile or on casters.

Because they are intended to mount between two vertical surfaces, corner drainboards do not come with legs. If one side of the corner does not have a vertical surface on which to mount, then a leg set must be ordered as an accessory.

*Choice Corner Filler Boards**

Pricing effective June 1, 2022

*NOTE: Choice Corner Filler Boards are manufactured to order and are not returnable

Corner filler boards are all 24″ deep and available for small degree inside turns. Corner filler boards are designed to mount between two pieces of Choice underbar. However, corner filler boards can be used to mount between any two stable vertical surfaces. Corners should not be mounted to objects that are mobile or on casters.

Because they are small and intended to mount between two vertical surfaces, corner filler boards do not come with legs or have optional legs available. If one side of the flat top corner filler does not have a vertical surface on which to mount, the end user must ensure the one adjoining surface is secure and stable.

All Sink Cabinets are 24″ deep and available with or without a locking door. The 12″ wide chemical storage cabinet holds three 1-gallon chemical containers. The 18″ wide dry waste cabinet holds a trash receptacle and has a 6″ round trash chute in the work surface. The trash receptacle is not included.

The two 24″ wide models include a 12″ drainboard section with corrugated work surface. A vertical center divider allows three 1-gallon chemical containers to be stored below the sink with the other side of the cabinet available for additional storage. An intermediate shelf for the cabinet storage below the drainboard is available as an accessory. The sink may be located to the left or right, which is signified by the L or R in the model number.

Product Information
(see C-DS, C-TS, and C-FS Spec Sheets for complete details)

Standard Features

- All stainless steel construction and adjustable thermoplastic bullet feet
- One-piece seamless top and backsplash featuring 1/4″ radius corners for easy cleaning
- 20 gauge stainless steel fabricated sink bowls are 70% thicker than the competition's 20 gauge drawn bowls
- 11″ by 14″ by 10-1/4″ deep sink bowl with hot and cold water faucet
- Extra wide sink bowl easily accommodates brush washer
- Perforated stainless steel inserts are available to cover sinks when not in use
- One over-flow tube per sink bowl included

C-TSA-60

TR   LWS

Compartment Sinks come in three different varieties: two, three, and four compartment. They feature a one-piece stainless steel top that is seamless all the way through the backsplash. Each variety is offered with or without built-in drainboards on one or both sides of the sink compartment. The corrugated drainboards, where included, are a seamless and integral part of the work surface. The seamless welded bowls are 20 gauge fabricated stainless steel. An 'L' or 'R' suffix in the model number designates the location of the sink compartment as left or right when there is only one drainboard.

*NOTE: These compartment sinks are manufactured to order and are not returnable

PRODUCT INFORMATION
(see C-IOS Spec Sheet for complete details)

The Choice Island Oasis® Stand is designed for use with the model number SB-3X Island Oasis® machine. The 18″ wide by 29″ deep stand has a lowered draining work surface and extended front to allow the machine to be stored at a convenient and usable height. In most bar applications, the clear plastic ice container will be visible above the bar top.

STANDARD FEATURES

- All stainless steel construction
- Adjustable thermoplastic bullet feet
- 1″ deep drain pan work surface to capture excess moisture
- One-piece seamless top and backsplash featuring 1/4″ radius corners for easy cleaning
- Lowered work surface with extended front
- Designed to keep the majority of the Island Oasis® (model #SB-3X) below the bar top with only the clear plastic ice tub visible above the bar top
- Chamfered front to eliminate "knee knockers"

PRODUCT INFORMATION
(see C-DWR Spec Sheet for complete details)

There are three different Clip-On Dry Waste Rail models to meet various installation requirements. For all three versions, the dry waste chute portion easily lifts off for thorough cleaning.

C-DWR-S

C-DWR-D

C-DWR-C

The C-DWR-S is 5″ deep front-to-back and designed to align with adjacent equipment that has a single speed rail.

The C-DWR-D model is 10″ deep front-to-back and designed to align with adjacent equipment that has a double speed rail. The C-DWR-D has a speed rail step in the back with the dry waste chute at the front.
The C-DWR-C model is designed to clip to another speed rail and adds 5″ to the front-to-back depth.

STANDARD FEATURES
- All stainless steel construction
- Matches speed rail profile for continuity of design
- Bolts to the front skirt of non-cabinet base underbar equipment or clips to the rail of an underbar speed rails
- Stainless steel chute is removable for cleaning

Bar Fabrication - Choice

CHOICE BY GLASTENDER

Glastender, Inc. • 5400 North Michigan Road • Saginaw, MI • 48604-9780
800.748.0423 • 989.752.4275 • Fax 989.752.4444 • www.glastender.com

Model number C-MD-41 Choice modular bar die has an overall height of 41″, which provides the appropriate overall height for most bar applications. However, some interior designs require an extra thick bar top, so Choice modular bar die is also available with an overall height of 38″. See model C-MD-38.

With the Choice Modular Bar Die, underbar equipment is mounted to and supported on the bar die. All the underbar equipment is pre-assembled and mounted to the bar die at the factory, then broken down into shippable sections. Installation of the bar die is very simple - easier than a conventional style underbar with a millwork bar die. The result is a beautiful, innovative underbar line up that is sealed to the floor, stainless from floor to bar top, eliminates all underbar leg sets, and hides the soda, beer, electrical, and plumbing lines.

PRODUCT INFORMATION
(see C-MD Spec Sheet for complete details)

FEATURES

- 16 gauge galvanized steel structure with stainless steel bartender side finishing
- 20A GFI outlets built into bar die wall based on customer preference (wiring not provided)
- LED lights built into bar die wall above underbar equipment (wiring not provided)
- Built in chaseways for beer, soda, plumbing, and electrical lines

The total Number of feet required is calculated by determining the overall outside dimension of the bar die wall. Please round up to the nearest whole foot.

BENEFITS

- Stainless steel from floor to bar top on bartender side
- Floor can be sealed to the bar die to prevent moisture from seeping from the bartender side to the customer side of the bar
- Galvanized steel structure will not rot
- Built-in chaseways hide beer, soda, plumbing, and electrical lines for a cleaner, more attractive bar
- Arrives pre-assembled from factory in sections up to 6 feet for easy installation - lowers installation costs. Just bolt the sections together, level, and attach the floor.
- Pre-engineered to exact dimensions to ensure a precise fit
- Can be used in conjunction with removable front millwork finishing panels to provide easy access to soda, beer, plumbing, and electrical lines for future modification, maintenance, or repair
- Millwork bar top and front panels can be pre-fabricated and easily attached
- Eliminates all underbar legs for easy cleaning

Clip-on shelf divider
for middle and top shelf
06009785

In a typical cooler, only the front row of bottles is easy to access. Glastender's rotary wine shelf increases access by 270% (16 vs. 6 bottles).

The rotary wine shelf is for use with C1FB36, C1FB60, C1FB84, and C1FB108 model coolers. Two rotary shelves can be used behind each 20" cooler door opening, where they sit on two standard cooler shelves. Each rotary shelf holds up to 29 wine bottles (750ml).

Configuring Bar Profile Coolers for Draft Beverage Dispensing

All Glastender bar profile coolers can be configured for draft beverage dispensing. Please note that a minimum 17″ wide door opening is required for full size (i.e., 16″ diameter) 1/2 barrel kegs. Refer to the capacity statements in the Product Directory or Specification Sheet for the sizes and quantities of kegs each unit will hold.

Direct Draw Draft Beverage Towers

Glastender Beverage Towers include the stainless steel faucets and shanks necessary to dispense keg beer, wine, soda, coffee, or cocktails. See individual price pages for complete information.

Tee Tower shown
See pages 129 - 144 for

Draft Beverage Compatible

HIGH PRESSURE REGULATOR KITS

High pressure regulators reduce the gas pressure from the primary source. A tank mount regulator attaches directly to a gas cylinder, while a wall mount regulator splices into gas tubing when the gas supply is used for more than one system. RKH-TN regulator kits are used If pre-blended CO_2 and nitrogen or pure nitrogen cylinders are being used. All high pressure regulator kits include 50 feet of braided nylon gas tubing.

MODEL	DESCRIPTION	LIST	WGT
RKH-W	Wall mount, CO_2 or Nitrogen, single gauge	$337	15#
RKH-TC	Tank mount, CO_2, double gauge	$288	15#
RKH-TN	Tank mount, Nitrogen, double gauge	$390	15#

LOW PRESSURE REGULATOR KITS

Low pressure regulator kits connect to the gas tubing exiting a high pressure regulator. If a 5 pound gas cylinder will be kept inside the cooler, a single gauge tank mounted RKL-TC or -TN will be required depending on the gas being used. All low pressure regulator kits include 6 feet of red gas tubing. For installations requiring more than one keg on tap, also order the appropriate size manifold kit. All manifold kits include 6 feet of red gas tubing per product, and the clamps required for connecting to keg couplers (sold separately).

Tower Cooling Kits

Direct draw beverage towers are chilled by air from inside the host cooler. This is especially important for draft beer, as warm faucets cause the beer to foam.

Clip-on shelf divider,
pass thru cooler, for
middle and top shelf
06009785

In a typical cooler, only the front row of bottles is easy to access. Glastender's rotary wine shelf increases access by 270% (16 vs. 6 bottles).

The rotary wine shelf is for use with CP1FB36, CP1FB60, and CP1FB84 model coolers. Two rotary shelves can be used behind each 20″ door opening, where they sit on two standard cooler shelves. Each rotary shelf holds up to 29 wine bottles (750ml).

PRODUCT INFORMATION
(see CP1FB Spec Sheet for complete details)

STANDARD FEATURES:
- Self-contained
- All stainless steel interior construction
- Three adjustable coated shelves per section
- Listed to NSF Standard 7 for open food as a storage refrigerator

PRODUCT INFORMATION
(see ST Spec Sheet for complete details)

STANDARD FEATURES:
• Self-contained refrigeration
• All stainless steel interior with radius corners is easy to keep clean
• Easy to plan exterior dimensions: 24″ front to back and 24″, 36″, 48″, 60″, 72″, or 96″ left to right
• Foamed-in-place insulation
• Six-foot grounded cord and plug provided (exits at rear)
• Automatic defrost timer
• Door lock(s)

ELECTRICAL:
• Dedicated 15 amp circuit is required
• 120V, 1 phase, 60 Hz, 4.5 full load amps
• Includes 9-foot grounded cord

REFRIGERATION:
• 1/6 HP, R290 refrigerant

PLUMBING:
Automatic condensate evaporator. No drain connection required.

LLDG model Lighted Liquor Displays are specifically designed for use with Glastender Glass Ice Display Units (see page 115). When mounted on a cooler at the factory, the 16″ deep GDU models have an 8-1/4″ rear deck space designed to fit the 8″ deep LLDG. The 9-1/4″ high first step of the LLDG raises the bottles above the back of the GDU. Also, the LLDG has a front light channel to help illuminate the GDU. (See the side view detail.)

PRODUCT INFORMATION
(see BLC Spec Sheet for complete details)

STANDARD FEATURES:

- Glycol connections with flared fittings for easy service access
- Durable black vinyl-clad exterior with 16 gauge galvanized steel base
- Stainless steel, foamed-in-place insulated glycol bath
- High efficiency heat exchanger minimizes glycol bath size to one gallon
- CFC-free R134a refrigerant
- Front located glycol filling port

ADDITIONAL FEATURES ON REMOTE INSTALLABLE CONTROL PANEL MODELS:

- Digital temperature control with LCD display
- Over-sized condenser coil for maximum efficiency
- Clear glycol bath cover for easy visual inspection
- Available with two recirculating pumps

Protected by one or more patents. For more information visit:
https://www.glastender.com/patents

ELECTRICAL:

BLC-1/3-E: 120V, 1 phase, 60 Hz, 12.5 full load amps, dedicated 20 amp circuit req'd

BLC-1/3: 120V, 1 phase, 60 Hz, 12.5 full load amps, dedicated 20 amp circuit req'd

BLC-1/3-2: 120V, 1 phase, 60 Hz, 18.6 full load amps, dedicated 30 amp circuit req'd

BLC-1/2: 120V, 1 phase, 60 Hz, 13.5 full load amps, dedicated 20 amp circuit req'd

BLC-1/2-2: 120V, 1 phase, 60 Hz, 19.5 full load amps, dedicated 30 amp circuit req'd

BLC-3/4: 230V, 1 phase, 60 Hz, 10.1 full load amps, dedicated 20 amp circuit req'd

BLC-3/4-2: 230V, 1 phase, 60 Hz, 12.9 full load amps, dedicated 20 amp circuit req'd

REFRIGERATION:

BLC-1/3-E, BLC-1/3 and BLC-1/3-2: 1/3 HP, R134a refrigerant

BLC-1/2 and BLC-1/2-2: 1/2 HP, R134a refrigerant

BLC-3/4 and BLC-3/4-2: 3/4 HP, R134a refrigerant

What is a remote installable control panel?

The Glastender patented beverage line chiller design houses the heat exchanger inside the condensing unit compartment. This unique feature allows the control panel with glycol bath and recirculating pump(s) to be easily installed separately from the condensing unit in a more conveniently accessible location. Simply remove the control panel from the condensing unit cabinet and mount it in the desired location. Only glycol and electrical lines need to be run between the control panel and the condensing unit cabinet.

Condensing unit and heat exchanger cabinet

Glycol return from beverage tower to heat exchanger

Glycol line from pump to beverage tower

Glycol line from bath to pump

Recirculating pump

One gallon glycol bath

Patented. For more information visit:
https://www.glastender.com/patents

Which line chiller size should you choose? Remote beverage line chillers are sized to handle different length runs. If two separate conduits are involved, then the lengths of the two runs must be added together to determine the total run requirement. The run length is calculated as the distance between the line chiller and the beverage tower in a single pass glycol conduit, including any rise or fall.
BLC-1/3-E

BLC-1/3-2
BLC-3/4-2

Beverage Dispensing

(see LCS and LCR
Spec Sheets for complete details)
LCS-G

LCR-GE

All stands are 39″ high by 25-5/16″ deep. LCS-S and LCS-G stands are 26-7/8″ wide. LCS-S2 and LCS-G2 stands are 32-7/8″ wide to accommodate a line chiller on both the top and bottom shelf. Comes with adjustable feet for leveling. The bottom shelf is at the 8″ high level. Predrilled mounting holes fit Glastender line chiller models. The four stands are used for all line chiller models.

A line chiller wall rack is a shelf that is mounted to a structural wall. The shelf has holes that correspond to the line chiller leg set mounting holes, so the line chiller can be bolted to the shelf.

PRODUCT INFORMATION
(see CT Spec Sheet for complete details)

STANDARD FEATURES
- All stainless steel construction
- Integrated surface mount drain pan with lift-out perforated inserts
- 1/4″ shanks with 3/16″ restriction lines
- Available in grainline finish, mirror finish, or brass finish
- Available with cold plate assembly and insulated restriction lines for glycol recirculating system (specify suffix 'R' in the model number)
- Available in 1, 2, and 3 faucet sizes
- All models include all stainless steel faucets and shanks to resist corrosion and prevent metallic leaching, making them ideal for both draft beer and wine applications
- Unique internal support system for solid mounting
- Base plate serves as template for hole cutting
- Mounting holes will be pre-drilled at the factory if the host cooler is ordered with a finished top and the tower location is specified

*NOTE: These Column Towers are manufactured to order and are not returnable
**NOTE: Brass finish towers provided with mirror finish drain pan and brass finish perforated insert

Rinser faucet installation notes:
- Important: Unit must be installed in conformance with applicable federal, state, and local plumbing codes, including adequate backflow when required.
- Must install backflow prevention device conforming to ANSI/ASSE 1022 or ANSI/ASSE 1024 to meet plumbing code (not included).
- Install in-line water regulator (included).
- A separate shut-off valve is recommended (not included).

RINSER FAUCET EXTENSION

Column tower drain pans can be manufactured with rinser faucet extensions to the left or right of the drain pan. A rinser faucet extension will add 5″ to the overall length of the drain pan. Add the RFE upcharge when placing your order.

NOTE: Rinser faucets not intended for use with towers mounted to a refrigerator due to risk of water line freeze up.

*NOTE: These Tee Towers are manufactured to order and are not returnable
**NOTE: Brass finish towers provided with mirror finish drain pan and brass finish perforated insert

PRODUCT INFORMATION (see BT Spec Sheet for complete details)

STANDARD FEATURES
• All stainless steel construction • Integrated surface mount drain pan with lift-out perforated inserts • 1/4″ shanks with 3/16″ restriction lines •Available in grainline finish, mirror finish,or brass finish • Available with cold plate assembly and insulated restriction lines for glycol recirculating system (specify suffix 'R' in the model number) • Available in 4, 5, 6, 8, 10, and 12 faucet sizes • All models include all stainless steel faucets and shanks to resist corrosion and prevent metallic leaching, making them ideal for both draft beer and wine applications • Unique internal support system for solid mounting • Base plate serves as template for hole cutting • Mounting holes will be pre-drilled at the factory if the host cooler is ordered with a finished top and the tower location is specified

RINSER FAUCET EXTENSION

Tee tower drain pans can be manufactured with rinser faucet extensions to the left or right of the drain pan. A rinser faucet extension will add 5″ to the overall length of the drain pan. Add the REF upcharge when placing your order.

NOTE: Rinser faucets not intended for use with towers mounted to a refrigerator due to risk of water line freeze up.

MODEL	**DESCRIPTION**	**LIST**
RFE	Rinser faucet extension	$691

Rinser faucet installation notes:
• Important: Unit must be installed in conformance with applicable federal, state, and local plumbing codes, including adequate backflow when required.
• Must install backflow prevention device conforming to ANSI/ASSE 1022 or ANSI/ASSE 1024 to meet plumbing code (not included).
• Install in-line water regulator (included).
• A separate shut-off valve is recommended (not included).

PRODUCT INFORMATION (see MT Spec Sheet for complete details)

STANDARD FEATURES
- 1/4″ stainless steel shanks with 3/16″ restriction lines
- All stainless steel faucets
- Surface-mount, stainless steel drain pan with removable, perforated insert

Configurable Options
- 4, 5, or 6 faucets
- Mirror or polished brass finish
- Air cooled for direct-draw system or glycol cooled for recirculating system
- Rinser faucet extension to the left or right of the drain pan; specify RFE option

RINSER FAUCET EXTENSION

Mushroom tower drain pans can be manufactured with rinser faucet extensions to the left or right of the drain pan. A rinser faucet extension will add 5″ to the overall length of the drain pan. Add the RFE upcharge when placing your order.

NOTE: Rinser faucets not intended for use with towers mounted to a refrigerator due to risk of water line freeze up.
Rinser faucet installation notes:
- Important: Unit must be installed in conformance with applicable federal, state, and local plumbing codes, including adequate backflow when required.
- Must install backflow prevention device conforming to ANSI/ASSE 1022 or ANSI/ASSE 1024 to meet plumbing code (not included).
- Install in-line water regulator (included).
- A separate shut-off valve is recommended (not included).

UC-4-SSR
Shown attached to bar
(Handles not included)

PRODUCT INFORMATION
(see UC Spec Sheet for complete details)

STANDARD FEATURES: All stainless steel construction • 1/4″ shanks with 3/16″ restriction lines • Includes cold plate assembly and insulated restriction lines for glycol recirculating system • Includes all stainless steel faucets and shanks to resist corrosion and prevent metallic leaching, making them ideal for both draft beer and wine applications

NOTES:
1. Installation of the undercounter tower requires a minimum bar top overhang of 7″.
2. Undercounter towers do not include a drain pan. Glastender offers a free standing underbar beer drainer. See model numbers BDA or BDB for the main line (page 51) or C-BD for the Choice line (page 71).
3. The beverage and glycol lines exit the bottom of the tower and are rigid, so the undercounter tower must be installed prior to installing the beer drainer. The 8, 10, and 12 faucet models have two sets of lines exiting the bottom of the tower.

Glastender

144

Glastender manufactures and diverse line of highly configurable kitchen fabrication products providing you with tailor-made solutions.

CAB-D
18″ D by 66″ L Dish Cabinet with
1″ overhang and rounded nosing profile

DISH CABINETS

PRODUCT INFORMATION
(see CAB-D Spec Sheet for complete details)

All stainless steel construction including fixed mid-shelf and reinforcement channels. Available in lengths from 36″ to 108″ in one-half inch increments. Models 72″ and longer have a center mullion.

Top options include: Depth - 15″, or 18″ • Front overhang - 1/4″, 1″, or 2″ • Nosing profile - flat, or rounded

Base options include: Feet - bullet or flanged

MODULAR BEVERAGE STATIONS

PRODUCT INFORMATION
(see CAB-MBS Spec Sheet for complete details)

Modular beverage stations are configured and manufactured to your specific requirements. A complete lineup is designed by selecting from the top options and then specifying the module types and sizes to mount below the top. Stations ship complete in lengths up to 144″.

Top options include: Depth - 24″, 30″, or 36″ • Front overhang - 1/4″, 1″, or 2″ • Nosing profile - flat, marine, or rounded • Backsplash - none, 5″, or 10″ • Endsplash - none, left, right, or both • Integrally welded drip trough • Electrical outlets in the backsplash

Module options include: Adjustable shelf • Drawer • Drop-in • Empty space • End wall • Fixed shelf • Glass rack • Open storage • Roll-out shelf • Sink • Urn stand

108″ L by 30″ D CAB-MBS
Modules left to right: drop-in with solid apron, roll-out shelf, urn stand, and adjustable shelf with solid door

CAB-WT
30" D by 54" L Work Table Cabinet with
1/4" overhang, flat nosing profile and
hinged doors

WORK TABLE CABINETS

PRODUCT INFORMATION
(see CAB-WT Spec Sheet for complete details)

All stainless steel construction including reinforcement channels. Available in lengths from 18″ to 108″. Models 63″ and longer have a center wall.

Top options include: Depth - 24″, 30″, or 36″ • Front overhang - 1/4″, 1″, or 2″ • Nosing profile - flat, or rounded • Backsplash - none, upturn, 1″ deep, or 2-1/4″ deep

Base options include: Mid-shelf - none, fixed, or adjustable (models less than 63″ long) • Doors - none or hinged • Feet - bullet or flanged

RCK-WS
42" L Wall-Mount
Sorting Rack

WALL-MOUNT SORTING RACKS

PRODUCT INFORMATION
(see RCK-WS Spec Sheet for complete details)
Configurable Wall-Mount Sorting Racks deliver tailor-made solutions. All stainless steel construction.

Options include: Shelf length - 21″, 42″, 63″, or 84″

SHF-PT
24" D by 48" L Pass-Thru Shelf with rounded nosing (gusset bracket not shown)

PASS-THRU SHELVES

PRODUCT INFORMATION
(see SHF-PT Spec Sheet for complete details)
Brackets are field mounted and allow for variations in wall thickness. Available in 18″ or 24″ depths and lengths from 36″ to 144″ in one-half inch increments. 18″ deep units ship with "L" brackets, 24″ units ship with gusset brackets.

Top options include: Nosing - flat or rounded • Overshelf - with or without • Overshelf structure - standard or heater mountable • Overshelf height - from 12″ to 18″

SHF-W
12″ D by 24″ L Wall-Mount Shelf with rounded nosing profile

WALL-MOUNT SHELVES

PRODUCT INFORMATION
(see SHF-W Spec Sheet for complete details)
All stainless steel construction. Units available in lengths from 24″ to 144″ in one-half inch increments. Units 72″ and longer have (3) support brackets.

Top options include: Nosing - flat or rounded • Top depth - from 10″, 12″, 15″ or 18″

SHF-WM
18″ D by 24″ L Wall-Mount Microwave Shelf

WALL-MOUNT MICROWAVE SHELVES

PRODUCT INFORMATION
(see SHF-WM Spec Sheet for complete details)
All stainless steel construction. Available in depths from 18″ to 24″ and lengths from 24″ to 36″.

SHF-WP
12″ D by 36″ L Wall-Mount Shelf with Pot Rack and flat nosing profile

WALL-MOUNT SHELVES w/POT RACK

PRODUCT INFORMATION
(see SHF-WP Spec Sheet for complete details)
All stainless steel construction. Units available in lengths from 24″ to 144″ in one-half inch increments. Units 72″ and longer have (3) support brackets. Each shelf includes (1) double pot hook per foot.

Top options include: Nosing - flat or rounded • Top depth - 10″, 12″, 15″ or 18″

SNK-C
30″ D by 102″ L
Compartment Sink with three 18″ by 24″ by 14″ deep sink bowls and right and left drainboards. Faucet not provided.

COMPARTMENT SINKS

PRODUCT INFORMATION
(see SNK-C Spec Sheet for complete details)

One, two, three and four compartment models are available with or without drainboards. All stainless steel, TIG welded construction. Available in depths from 24″ to 36″ and lengths from 24″ to 144″ in one-half inch increments.

Top options include: Number of sink bowls - 1, 2, 3, or 4 • Backsplash height - 7″ to 13″ • Drainboard - none, left, right, or both • Endsplash - none, left, right, or both • Sink bowl depth - 6″ to 14″

Base options include: Legs - welded or knock down • Feet - bullet or flanged • Undershelf - welded, adjustable, or removable

SNK-M
24" D by 24" L by 14" H Mop Sink with 20" by 20" by 10" deep sink bowl

MOP SINKS

PRODUCT INFORMATION
(see SNK-M Spec Sheet for complete details)

All stainless steel, TIG welded construction. Sink bowl depths available from 6″ to 14″ in one inch increments.

Kitchen Fabrication & Refrigeration

STA-E
30" D by 37" L by 24" H Equipment Stand with adjustable undershelf

EQUIPMENT STANDS

PRODUCT INFORMATION
(see STA-E Spec Sheet for complete details)

All stainless steel construction including reinforcement channels. Available in depths from 18″ to 36″ and lengths from 18″ to 96″ in one-half inch increments.

Top standards: Flat nosing and 1-1/2″ upturn edge on three sides

Base Options include: Undershelf - none, welded, or adjustable • Legs - welded or knock down • Feet - bullet, flanged, or casters • Height - 20″ - 30″

STA-M
30" D by 30" L by 24" H Mixer Stand with welded undershelf

MIXER STANDS

PRODUCT INFORMATION
(see STA-M Spec Sheet for complete details)

All stainless steel construction including reinforcement channels. Available in depths from 18″ to 36″ and lengths from 18″ to 36″ in one-half inch increments.

Top options include: Nosing profile - marine or inverted V

Base options options include: Undershelf - none, welded, or adjustable • Legs - welded or knock down • Feet - bullet, flanged, or casters • Height - 20″ - 30″

TAB-CD
30" D by 48" L straight,
right, Clean Dish Table

CLEAN DISH TABLES

PRODUCT INFORMATION
(see TAB-CD Spec Sheet for complete details)
All stainless steel, TIG welded construction.

Top options include: Side - left or right • Style - straight, island, or corner • Endsplash - none, left, or right • Tubular overshelves • Custom notching to match dishwasher model

Base options include: Undershelf - none, welded, or adjustable • Legs - welded or knock down • Feet - bullet or flanged

SOILED DISH TABLES

PRODUCT INFORMATION
(see TAB-SD Spec Sheet for complete details)
All stainless steel, TIG welded construction.

Top options include: Side - left or right • Style - straight, island, corner, landing, or U-landing • Endsplash - none, left, or right • Tubular overshelves • Disposer cutouts • Scrap basket • Scrap block • Notching to fit dishwasher models

Base options include: Undershelf - none, welded, or adjustable • Legs - welded or knock down • Feet - bullet or flanged

TAB-SD
30″ D by 66″ L straight, soiled, left dish table
with 20″ by 20″ by 6″ deep prerinse sink with
removable scrap basket

TAB-W
30″ D by 72″ L Work Table with
welded undershelf, 15″ by 20″ drawer
and 15″ deep tiered overshelves

WORK TABLES

PRODUCT INFORMATION
(see TAB-W Spec Sheet for complete details)
All stainless steel construction including reinforcement channels. Available in depths from 18″ to 36″ and lengths from 18″ to 144″ in one-half inch increments.

Top options include: Nosing profile - flat, marine, or rounded • Backsplash - none, upturn, 1″ deep, or 2-1/4″ deep • Endsplash - none, left, right, or both • Overshelf - none, single, or tiered • Integrally-welded, fabricated sinks • Drop-in cutouts

Base options include: Undershelf - none, welded, or adjustable • Legs - welded or knock down • Feet - bullet, flanged, or casters • Drawers - none, single, or tiered

STANDARD FEATURES:
- Self-contained forced air refrigeration system for uniform cooling of product
- Automatic condensate evaporator
- Digital thermostat with automatic defrost
- All stainless steel interior construction
- Stainless steel foamed-in-place insulated door and lettuce chute
- Stainless exterior construction with galvanized back and bottom
- Removable plastic lettuce bin and divider included
- Removable condenser air inlet filter for easy cleaning
- Bracket for wall mounting
- 4″ adjustable legs available
- Nine-foot grounded cord & plug provided
- Listed to NSF standard 7 for open food as a storage refrigerator

CAPACITY: Approx. 50 heads of lettuce (shredded)
ELECTRICAL: 120V, 1 phase, 60Hz, 2.5 full load amps. Dedicated 15 amp circuit is required.
REFRIGERATION: 1/8 HP, R290 refrigerant, 1,023 BTU/hr heat rejection
PLUMBING: Automatic condensate evaporator. No drain connection required.

Standard mounting for towel rings is server side left. Standard mounting for bottle opener/cap catcher is server side right. Please specify when ordering if you would like these items mounted in a different location.

Product Information
(see MIB Spec Sheet for complete details)

Standard Features

• Designed for iced product storage and merchandising, especially long neck bottled beer
• Foamed-in-place insulated cabinet and PVC breaker strip around liner prevents exterior condensation
• Heavy duty construction with attractive black vinyl-clad exterior that resists scratching
• Stainless steel top, liner, and perforated drain pan inserts with 1/4″ radius interior corners for easy cleaning
• Built-in storage area below ice bin. Stainless steel floor has 1/4″ radius corners for easy cleaning.
• No plumbing required. Includes a flexible drain line with on/off valve for draining when most convenient.
• The standard models have a 30-3/8″ work height
• The '-H' models feature a taller cabinet base and a 36-38″ work height
• The '-ED' models feature an extra deep bath and a 36-3/8″ work height
• Standard and -H models liner depth 10-1/2″
• -ED model liner depth 16-1/2″
• All models available in lengths of 36″ or 48″
• Optional towel ring and bottle opener/cap catcher available
• Flexible drain line with on/off valve
• 4-1/8″ rubberized casters, with two locking casters on server side

Index

Warranty

APPLICABLE TO ALL PRODUCTS SOLD WITHIN THE UNITED STATES AND CANADA

Glastender, Inc. warrants all products to be free of defects in material and workmanship. One-year labor and parts warranty applies to all glasswashers, self-contained refrigeration models, and BDS model bottle disintegration units. In established areas, a start up is included with GT-24 and GT-30 model glasswashers. Warranty is effective for one year from the date of installation or up to 18 months from date of factory shipment, whichever occurs sooner. Glastender, Inc. will replace any part or assembly found defective under normal use and service.

For warranty labor claims beyond 12 months from the date of factory shipment, proof of date of installation or occupancy must be provided. Authorization for labor must be obtained from Glastender within the warranty period and prior to the service being performed.

Labor warranty applies to the 50 states of the USA and Canada only.

Remote refrigeration models exclude the labor warranty for the condensing unit and issues related to the field installation and test of the completed refrigeration system, provided by others.

Field replacement parts not covered under the original warranty include a 90-day part warranty from the date of installation.

FOUR YEAR ADDITIONAL COMPRESSOR WARRANTY

Glastender will warrant to the original user the compressor for all self-contained refrigeration models for an additional four years following the regular one-year warranty period. This plan applies to the compressor only.

A completed warranty claim form MUST accompany all returned defective parts or assemblies. Upon request, a defective part or assembly must be returned to Glastender, Inc., Saginaw, Michigan, with all transportation and delivery charges prepaid. Warranty repairs or replacements will be shipped FOB factory in Saginaw, Michigan. Reimbursement for applicable freight charges covers ground service only.

Glastender provides in-warranty repairs during a service company's regular working days and hours. There is no provision for payment of a premium rate during "overtime" hours. When warranty service is requested during other than normal working hours, the end user will be charged the premium portion of the overtime rate.

The warranty covers substantiated travel expenses for up to 2 hours / 100 miles round trip up to a maximum of $225. Any additional costs due to installations that require extra work, time, or travel to gain access for service are the sole responsibility of the equipment purchaser. Any exceptions to these travel and access limitations must be pre-approved by a factory representative.

The warranty does not cover door gaskets, chemical tubing, pump squeeze tubing, and/or any equipment subjected to accidents, freight damage, alterations from the original design, improper power and/or plumbing hookups, improper chemical use, general misuse, or lack of routine required maintenance as determined by Glastender, Inc. Installation, normal control adjustments, general maintenance, correcting an installation error, or service calls that reveal the unit is functioning normally will not be reimbursed under warranty.

Condenser coils on self-contained refrigeration products must be cleaned regularly. Failure to provide adequate air flow to a refrigeration unit will void the warranty.

Glastender shall not be liable for loss of use, revenue, or profit, or for any other indirect, incidental, special, or consequential damage including, but not limited to, product spoilage or loss.

This warranty is conditioned upon Glastender receiving notice of any defect subject to this warranty within sixty (60) days of its discovery by the end user or dealer. All products are warranted only for the initial place of installation. Removal of a product automatically terminates this warranty.

SECOND YEAR EXTENDED PARTS & LABOR WARRANTY

Glastender's one-year parts and labor warranty on self-contained refrigeration units can be extended to two years with the purchase of a two year parts and labor warranty. Specify part number EWR2 ($250 net price) when ordering.

EXPORT WARRANTY - One year parts only.

EXCLUSION OF WARRANTIES

EXCEPT AS PROVIDED ABOVE, GLASTENDER MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT.

LIMITATION OF REMEDIES AND DAMAGES

If Buyer makes a valid and timely claim as outlined above, Glastender's liability and Buyer's remedies under this agreement will be limited solely to labor charges authorized and/or replacement or credit, at Glastender's option, with respect to Products returned at Buyer's expense within thirty (30) days after warranty repair. GLASTENDER'S LIABILITY WILL IN NO EVENT BE GREATER IN AMOUNT THAN THE PURCHASE PRICE OF THE RETURNED PRODUCTS. GLASTENDER WILL NOT BE LIABLE UNDER ANY CIRCUMSTANCE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, LABOR COSTS EXCEPT AS COVERED UNDER OUR WARRANTY, LOST PROFITS OR THE LOSS OF PERISHABLE PRODUCTS RESULTING FROM THE USE OF OR INABILITY TO USE OUR PRODUCTS OR FROM OUR PRODUCTS' INCORPORATION INTO OR BECOMING A COMPONENT OF ANY OTHER PRODUCT. NEITHER PARTY WILL HAVE ANY NEGLIGENCE OR OTHER TORT LIABILITY TO THE OTHER, OR TO ANY THIRD PARTY, ARISING FROM ANY BREACH OF THIS AGREEMENT.

GOVERNING LAW - JURISDICTION

The terms and conditions of an order are to be governed and construed according to the laws of the State of Michigan, without regard to conflict of laws principles. Buyer hereby consents to the jurisdiction and venue of the courts located in Saginaw County, Michigan.

No representative, distributor, dealer, or any other person is authorized to modify this warranty. This warranty replaces all other written or verbal warranties.

NOTE: Glastender, Inc.'s policy of constant quality improvement means that prices, specifications, and policies are subject to change without notice. Questions regarding this warranty should be directed to Glastender's Warranty Administrator.
