LEADER IN
**FOODSERVICE
 EQUIPMENT**

Spring USA® is a leader in the foodservice equipment industry for more than 30 years.

The first to introduce countertop induction, induction cookware, and induction buffetware to the United States, we are known for the innovation and design of premium and reliable foodservice equipment as well as custom-built tables with hidden induction and cooling elements. A partner to leading companies in the foodservice, hospitality, catering/ events, and education/ healthcare industries, we not only manufacture quality products, we also provide design and build solutions for innovative foodservice.

INDUCTION RANGES

SHOWN: SM-1800LP, 8481-40/28

SHOWN: SM-181C, SM-351C, SM-251-2CR

SHOWN: SM-351C-FT, 8481-40/24

Guaranteed durable and reliable, each of our induction ranges are expertly crafted to meet rigorous testing and performance standards.

We don't just guarantee it, we prove it with **+99% uptime** and **an overnight exchange warranty**.

Features:

- **Exclusive SmartScan® Technology.** Safety features adjusts electrical output for pan size and construction, adjusts instantly to voltage fluctuations and automatically shuts off after 2 minutes of non-use
- **Automatic Pan Recovery.** Seamlessly adjusts and recognizes pans without losing connection as you lift or tilt from the surface during cooking, sauteing, or flipping - similar to a gas range but with no flash point and better cost savings than conventional gas
- **Premium tempered glass top.** 5mm tempered glass is 25% thicker than similar models on the market and is reinforced for extra durability
- **Energy-efficient, premium performance.** Our induction range line-up includes a variety of models that are Energy-star* approved, NSF-certified, and offer safer and cleaner cooking performance over traditional gas or electric.

BACK-OF-HOUSE INDUCTION

SHOWN: BOH-1826-SU

SHOWN: BOH-3500STP

Optimize your back-of-house operations with the power of induction – our BOH Series induction flameless cooking carts, cabinets, and cooktops offer cleaner, more efficient & safer cooking, prepping, and warming than traditional gas or electric cooking solutions. Greater energy transfer results in less emitted heat, greater utilization of energy, and reduction of fuel usage for commercial operations.

- **Flameless Cooking Induction Cabinets/Carts.** Induction cooktop cabinets and carts constructed to industry-standard sizes to easily replace traditional stoves and ranges with energy-efficient induction
- **Countertop Induction Cooktops.** Easily and quickly add induction to your BOH operation with powerful performance and control for professional cooking and finishing
- **Fire Suppression MCS.** The perfect way to add high-power cooking to your foodservice operation without additional hoods or duct work, the Fire Suppression MCS features a Buckeye BFR-5 UL300 Fire Suppression System that is NFPA Compliant
